

Our material compositions are as individual as your requirements. The ideal composition of polyurethane, resin or rubber with the corresponding grain guarantees the perfect result. Regardless of whether initial equipment, tools with a long service life, economic variants or special glass: you decide what you need, we have the matching series.

THE ECONOMIC ONE: SERIES AO - BJ

A mixture of grinding and polishing abrasives merge to an economic full material cup wheel in a polyurethane bond.

EDGE PROFILES

	Flat glass
	Miter (45°)
	Bevel
	Laminated safety glass (LSG)

MACHINES

Single and double edger machines

TOOL

Product :	ARTIFEX AO - BJ
Bonding :	Foamed polyurethane
Grain :	Aluminium oxide 40 60 80 120 180
Hardness :	Medium elastic
Colour :	According to grain size
Delivery :	Full material cup wheels Rings
Dimension :	Ø 75 - 170 mm

COLOUR CODE

Blue	40
Green	60
Red	80
Yellow	120
Purple	180

RESULT

Good gloss

ADVANTAGES

Low tool costs | Easy to mount or glue | No smearing of the polishing wheels | No plastic residues on glass edges

LSG

We offer this product series segmented with 3-mm or 5-mm slots for perfect laminated glass processing. Your advantage: no clogging of the cup wheels, no sticking of foil on the glass edges. This is how easy it is to process laminated glass.
