

Our material compositions are as individual as your requirements. The ideal composition of polyurethane, resin or rubber with the corresponding grain guarantees the perfect result. Regardless of whether initial equipment, tools with a long service life, economic variants or special glass: you decide what you need, we have the matching series.

## THE EXTRA-SHARP ONE: SERIES EK – S

The perfect choice for arris with diamond pre-grinding: white special fused aluminium oxide in resin bond polishes without negatively changing the arris geometry.

## EDGE PROFILES

Arris

## MACHINES

OEM Benteler

## TOOL

Product : ARTIFEX EK 400 WBS  
Bonding : Resin  
Grain : White fused aluminium oxide 400  
Colour : Yellow
