

Quality made in Germany since 1924

**ARTIFEX RE 120 B**

The best quality edge deletion of LOW-E glass.

## NEW Edge deletion wheel with special features

The new Artifex edge deletion series RE 120 B provide the best solution for removing all types of metal coatings including the hardest multi layer glass coatings like Guardian TPF and Saint Gobain Easypro on cutting tables, vertical machines and portable grinders.

### GLASS

All types of Low-E or Sun Stop, Solar and the hardest multi layer coatings

### FOR MANUAL AND AUTOMATIC MACHINES

Manual machines

(Converted angle grinders or hand-held circular saws with reduced speed)  
e.g. Bohle | Knopp | Pannkoke | Rottler & Rüdiger

Vertical machines

e.g. Bystronic | Lenhardt | Lisec

Cutting tables with integrated stripping devices

e.g. Bavelloni | Bottero | Bystronic | Hegla | Intermac | Lisec and Macotec

### SPECIFICATIONS

Article: RE 120 B  
Bonding: Polyurethane  
Form: Peripheral wheel with core  
Dimensions:  $\varnothing$  200 mm x 10-30 x  $\varnothing$  76.20 mm  
or tailored to your requirements

### WORKING PARAMETERS

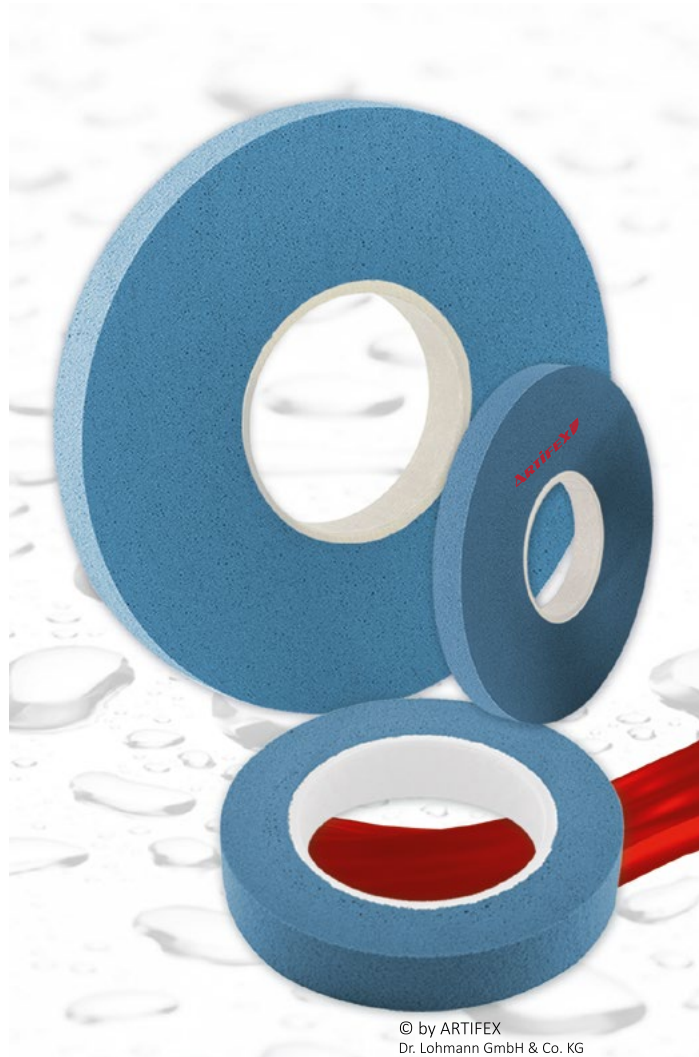

Rpm max. 3,700, 39 m/s  
Pressure applied can vary from 0.7 to 3.0 bars  
Linear speed based on coating material

### FEATURES

- + Clean surface quality
- + Delete the hardest multi layer coatings in one pass
- + Precision tolerances, reinforced core
- + Faster deletion vs. competitors
- + No residues on the glass
- + Long lifetime
- + Suitable for step glass applications

Dr. Lohmann GmbH & Co. KG

We are one of the world's leading polishing tool manufacturer for the glass and metal processing industry. Our sales markets include: All-Europe, China, Australia, Singapore, India, Indonesia and USA. Our offer include an innovative service program, expert advice and high-performance tailored quality products precisely to your needs.

### Sustainability:

Our products have a long service life. They require less chemical cooling lubricants for surface and edge processing than other polishing tools.
